So how did you figure all this out?

Legend:

First	15
Second	12
Third	10
Fourth	8
Fifth	6
Sixth	4
*points are only awarded through 6th	

So what are all those half points and odd numbers?

Ties.

In the case of true tie, the points for the tying place and the next place are added and the split evenly. For example:

In a tie for 2nd, there is no 3rd. 2=12 and 3=10; $12+10=22/2 = 11$ pts for each student.

In a tie for 6th, there are no points for 7 or 8 so they are valued at zero. For example, 6=4, 7=0, 8=0; $6+0+0=6/3 = 2$ pts for each student in the tie.

For team points:

Events receiving team points get 10 points for first and 5 for second. There are no team point given for 6 grade only events.
